This month's topic:

MANAGING YOUR PHOTOS IN iPHOTO

How to harness the power of iPhoto to manage, organize and tweak your photos to be presented by Roger Owens

With 126 photos from Cousin Emily's "Come As You Were" reincarnation party, 781 photos from your multiple trips to scenic, downtown Akron, and 12,943 photos of your adorable, fluffy kitty-cat, Fifi, how in the world can you keep track of them and find the ones you want? The answer lies in iPhoto. On Tuesday, Roger will show the many impressive capabilities of iPhoto which make it easy to sort, group, find and edit your images. From keywords to GPS location tracking to face identification to enhancing to sharing your photographs with others, iPhoto is a workhorse and a wonder!

(Hint: For the "full" view of the image above, which is composed entirely of smaller images, simply step back several feet from your monitor. Or, if you are viewing this on a smartphone, you are already seeing the full view, so zoom in to see the details.)
