

Our next meeting is:

**December 1st, 2015 — Tuesday**  
*at Creative Source (location details below)*

**6:30 PM — Socializing, news and announcements**  
**7:00 PM — Presentations begin**

This month's topic:

## **VIDEO ON YOUR MAC**

**How to view it and play it, from navigating YouTube to employing some great software for enjoying problem-free home videos and full-length movies**

**to be presented by Tom Davis and Rob Ellis**

Straight out of the box, Macs can certainly play video, but if you have ever wished for better ways to play those videos, or have ever tried to open a video file which your Mac does not recognize, this meeting can save you a lot of time and trouble. On Tuesday, Tom will show how to find your way around YouTube, from searching its vast collections to understanding YouTube's controls. And Rob will show an ingenious free app for downloading videos, full-featured apps for playing video, how to open those pesky videos that your Mac normally cannot play, how to play DVDs, and how to use a remote control with your Mac while propping up your feet and enjoying the view. What do your friends and relatives and Leonardo DiCaprio and Scarlett Johansson and Robert Redford and Julianne Moore have in common? They can all look amazing on your Macintosh screen. The only missing elements might be the noisy couple behind you and the theater usher to sweep up the popcorn.
