This month's topic:

APPLE BUYERS' GUIDE

Advice for choosing your perfect Mac, iPad, iPod or iPhone, and when and where to buy it
to be presented by Rob Ellis

Money cannot buy love, but you can easily fall in love with Apple gear that happens to be perfect for you, particularly if it costs far less than expected. Choosing it, however, is another matter. If all the equipment specs are beginning to blur, we promise to clear the fog, cross our hearts and hope to buy. On Tuesday, Rob will guide us through Apple's entire hardware lineup of Macs and mobile devices, with personalized advice for what to buy, when to buy it, and where to buy it for considerably less money. Searching for a gem can be time-consuming, but if you follow your heart, and our advice, your search may become a labor of love, without the labor. And the gem you choose may be the perfect Valentine to yourself.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

WHY CAN'T I OPEN THIS?

to be presented by Tom Davis

Have you ever tried to open a file downloaded from the web, or sent by a friend, only to be greeted by an error message? That file may be intended for another computer platform. On Tuesday, Tom will show us how to deal with .exe and other non-Macintosh or unusual file types.
