This month's topic:

BROWSER vs. BROWSER vs. BROWSER

An in-depth comparison of the three most popular web browsers for Mac
to be presented by **Tom Davis, Annette Davis and Rob Ellis**

Rob Ellis 2014

It's a great big World Wide Web out there, and surfing it can be a breeze if you happen to be doing your surfing in a web browser which works the way you want a browser to work. But how does one browse browsers to find that perfect browser, without trying each one? On Tuesday, Annette, Tom and Rob will do the browsing for you, by showing off the features of the three most popular browsers for Macintosh: Safari, Chrome and Firefox. We will look at all their best features, as well as the limitations of each browser. And although seeking a good browser may not be among the most burning questions in your life, finding a great one can turn your web-surfing into smooth sailing.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

WHAT'S YOUR PROBLEM? (Part 2)
to be presented by **Tom Davis**

On Tuesday, Tom will host a brand-new question and answer session. From troubleshooting issues to curiosities about how things work to solutions to problems, your questions are welcome. If you plan to attend, please submit your questions in advance to Tom at mac2mac@raex.com
