

MAC² members and friends — Hello to everyone!

February 3rd, 2015 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

STICK 'EM UP

How to use Avery Design & Print to create stunning labels on your Mac
to be presented by **Annette Davis**

A marker or pen, grasped between your opposable thumb and a finger or two, can be used to mark boxes and envelopes and such. But gorgeous, professional-looking labels stuck to parcels, envelopes, folders, CDs and more can make a very good impression indeed, and can often save you time. On Tuesday, Annette will show how to use Avery Design & Print software to make labels, dividers, CD inserts, name badges and even business cards and T-shirt transfers. Avery Design & Print is free, and with it, you can easily use your Mac to design and print on all sorts of media, adhesive or otherwise. Label us foolhardy if you like, but we think that's an idea that could stick.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

A JAUNT THROUGH YOSEMITE
to be presented by **Tom Davis**

Yosemite, besides being a breathtaking national park, is also the latest Macintosh operating system from Apple. If you have been wondering about the latter, on Tuesday, Tom will fill us in on some of the new features and differences in Yosemite, with a focus on the Finder.
