at Creative Source (location details below)

7:00 PM — Presentations begin

This month's topic:

READ IT LATER!

A look at several Mac and iOS apps which allow you to read web content later, even if you are not connected to the internet to be presented by **Roger Owens**

In this busy, busy world, how often have you encountered articles, recipes, entire web pages, or even videos which you would like to peruse later when you have more time? But when "later" arrives, suppose you have no available connection to the internet. There's an app for that! On Tuesday, Roger will demonstrate several solutions which work dandily on Macintosh, iPhone, iPad and iPod touch. Some apps even sync the articles and such to your various devices, and optimize them for readability. Catching up on your time can be challenging, but now you can certainly catch up on your reading.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

WHAT'S YOUR PROBLEM?
to be presented by **Tom Davis**

On Tuesday, Tom will host a question and answer session. From troubleshooting issues to curiosities about how things work to solutions to problems, your questions are welcome. If you plan to attend, please submit your questions in advance to Tom at mac2mac@raex.com

Also,
