This month's topic:

GOLDBLOCKS AND THE THREE iPADS

A look at all three of the latest iPad models, with plenty of info to help decide which one is right for you to be presented by Roger Owens

Decisions, decisions. Even if you already are certain that you want an iPad, which iPad is the perfect one for you? Small is good, but bigger is also good; how does one decide? On Tuesday, Roger will ease your dilemma with hands-on demonstrations of the iPad Air 2 and iPad mini 4, solid information about the iPad Pro, pros and cons of each model, and where each model excels. We will also learn about numerous new features in iOS 9.3, including Slide Over, Split View, the Shortcut Bar, and so much more. If you are considering buying an iPad or upgrading from the one you have, this meeting will help you choose the ideal iPad for you: not too big, not too small, not even too middle-sized, but just right.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

PHOTO BOOTH
to be presented by **Rob Ellis**

Every now and then, you might want to take a photo or video of yourself, using your Mac's camera. On Tuesday, Rob will show how you can take self-portraits in style, with entertaining, eye-grabbing effects if you like, by using an amazing little app that is already on your Mac.

Tonight, after enjoying a dinner that was not too hot, not too cold, but just right, and snuggling up in your bed which is not too hard and not too soft, but just right, you might find yourself dreaming of an iPad that is also just right. Fortunately, there is an easy way to choose the one that fits you. Please join us on Tuesday, when we will happily help you find the iPad of your dreams. And please feel free to bring a friend. See you there!
