

Our next meeting is:

March 5th, 2013 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

DRAG & DROP

Powerful tips and techniques for the Mac, all utilizing dragging and dropping to be presented by Rob Ellis

Your Macintosh allows many ways to perform tasks, and some of the most powerful ones can be accomplished with simple drag and drop techniques. The catch is that not all of these actions are obvious or intuitive; many of them lie waiting at your fingertips, unused. Rob will demonstrate a wide variety of drag and drop maneuvers, in the Finder, in applications, and between apps, including hidden and little-known tricks which can produce surprising results while saving time. Using your Mac can be a drag, but in the best possible ways. Please join us on Tuesday, and discover what the cat can actually drag in.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

GRAB THAT SCREEN
to be presented by **Al Risaliti**

How can you save pictures of your Mac's screen? There are several ways, and one of the easiest is by using an app called Grab. And to make things easier still, Grab is already on your Mac. On Tuesday, Al will show how to use this useful tool.

About the weather:

In these winter months, if the weather is particularly bad or road conditions are unsafe on the day of one of our monthly meetings, please try to check your email before you leave for the meeting. If a meeting is ever cancelled or postponed due to weather, we will send an emergency email to let you know.
