This month's topic:

## MAC MOVIE MAKING

How to use your Mac to create videos of your own  
to be presented by **Al Risaliti**

Lights! Camera! Action! Macintosh! If you have forever wanted to make your own motion pictures, Tuesday's meeting is for you. Whether or not your masterpiece leads to your brushing shoulders with Julia Roberts and George Clooney at the Academy Awards, the journey is bound to be an adventure. Al will show some good ideas for videos, give tips on honing your acting skills, explain how to import video into the Mac, and demonstrate some multi-track video and audio editing techniques. Armed with barely more than a director's chair and a Mac, in no time you too can hear your overwrought leading lady purr, "Alright Mr. DeMille, I'm ready for my close-up." Even if you have not yet cast the hero, plotted that perfect chase scene or booked the helicopters, please do at least come gaze with us at the silver screen, i.e., the big white wall in our meeting room. And please do send our regards to Julia and George.

Also,

## BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

### SETUP ASSISTANT

to be presented by **Rob Ellis**

After you take that shiny new Macintosh out of its box, there is a simple way to transfer almost everything from your old Mac to the new Mac. On Tuesday, Rob will show how to use Setup Assistant.

Also,

Please join us on Tuesday to learn all about making movies on your Mac. And please feel free to bring a friend. See you there!
