

Our next meeting is:

**May 5th, 2015 — Tuesday**  
*at Creative Source (location details below)*

**6:30 PM — Socializing, news and announcements**  
**7:00 PM — Presentations begin**

This month's topic:

## **MAKE YOUR WEB BROWSER SOAR**

**How to use add-ons and plug-ins to turbocharge your browser into doing things you never dreamed it could to be presented by Rob Ellis**

Modern web browsers are powerful, but add-ons expand their capabilities in ways far beyond the predictable, adding functions and features you might not have imagined possible, with clever additions that need to be seen to be believed. On Tuesday, we will look at add-ons and plug-ins for Safari, Chrome and Firefox, and show you how to install them and where to find more. Our special focus will be on the browser that has more available add-ons than any other: Firefox. Web browsers are free, and so are nearly all add-ons, so it costs you nothing to build the best browser that money can't buy. We have ignition . . .

Also,

## **BACK TO MAC BASICS**

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

**BUT IT'S IN MY WAY!**  
to be presented by Rob Ellis

While working or playing, your Macintosh screen can quickly become cluttered with many windows. Those windows can block your view of other areas of your Mac, making it difficult to get to what you want. On Tuesday, Rob will show a few built-in ways to temporarily clear your screen, fast and easy.

---

### **OUR MEETING LOCATION:**

*Creative Source  
4623 Everhard Rd NW  
Canton, OH 44718  
330-497-5556*

#### **DIRECTIONS:**

*Creative Source is located in the Belden Village area, in the small plaza at the intersection of Belden Village Street and Everhard Road. Within the plaza, it is to the right of PetPeople.*

*For a map, along with options to get directions from anywhere, [please click here](#)*

*About Creative Source: Creative Source is a provider of high-quality design, print ads, posters, and impressive large-scale banners, signs, displays and floor decals. For more information, visit their website at <http://www.csforideas.com>*

---

**Your web browser need not be grounded, with only its built-in abilities. From amazing functions to tools to toys, you can build a browser that flies. Metaphorically speaking, that is. Please join us on Tuesday to find out how, and please feel free to bring a friend. See you there!**
