This month's topic:

## **FONTS ON THE MAC**

How to find, install, organize and use fonts on your Mac  
to be presented by **Annette Davis**

With some great fonts installed on your Mac, be they formal, script, cartoon, dingbat or others, you can create beautiful documents, letters, crafts, scrapbooking projects and so much more. And how much will this beauty deplete your bank account? The costs of commercial fonts can be enormous, but the wonderful news is that there are tens of thousands of fonts available that will not cost you a single penny, and they are easily found. On Tuesday, Annette will show where you can find free fonts, how to download and install them, and how to utilize an app which is already on your Mac: Font Book. We will also explore a simple way to insert special characters so that a sentence such as, "While discussing zoology at the cafe, Emily was unpleasantly surprised to find a jalapeno in her creme brulee" can be correctly typed as, "While discussing zoölogy at the café, Emily was unpleasantly surprised to find a jalapeño in her crème brûlée." That diacritical tilde will not sweeten the sting of the jalapeño, but your spelling will be perfect. Please join us for a good look at fonts, and though you might leave the November meeting as a fontaholic, everything you type will look all the better for it.

Also,

## **BACK TO MAC BASICS**

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

**A UNIQUE WAY TO TACKLE PASSWORDS**  
to be presented by **Rob Ellis**

If you have ever had difficulty either dreaming up a good password or remembering it, this meeting topic is for you. On Tuesday, Rob will demonstrate a simple system for creating extremely complex passwords, with virtually no memorization required.
