

Our next meeting is:

October 2nd, 2012 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

MAC MAKEOVER

How to customize your Mac's appearance to make computing a more pleasant and personal experience
to be presented by **Rob Ellis**

Alas, beauty may be only skin deep, but beautifying what you see on your Mac's screen can go much deeper, because personalizing your computer can make it a joy to use. No need to spend money on makeup, jewelry, tanning salons or new shoes. On Tuesday, Rob will show how to use desktop wallpapers, colors or graphics as backgrounds in your folder windows, custom icons, highlight colors, plus third-party custom software goodies to compliment your already ever-so-attractive Macintosh. And yes, the beauty within these beautiful alterations may be in the eyes of the beholder, but come join us, because your eyes may love what they see.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

Color Labels
to be presented by **Rob Ellis**

They are so simple, yet so useful. Rob will demonstrate the organizational abilities of those often-overlooked Finder labels.
