

Our next meeting is:

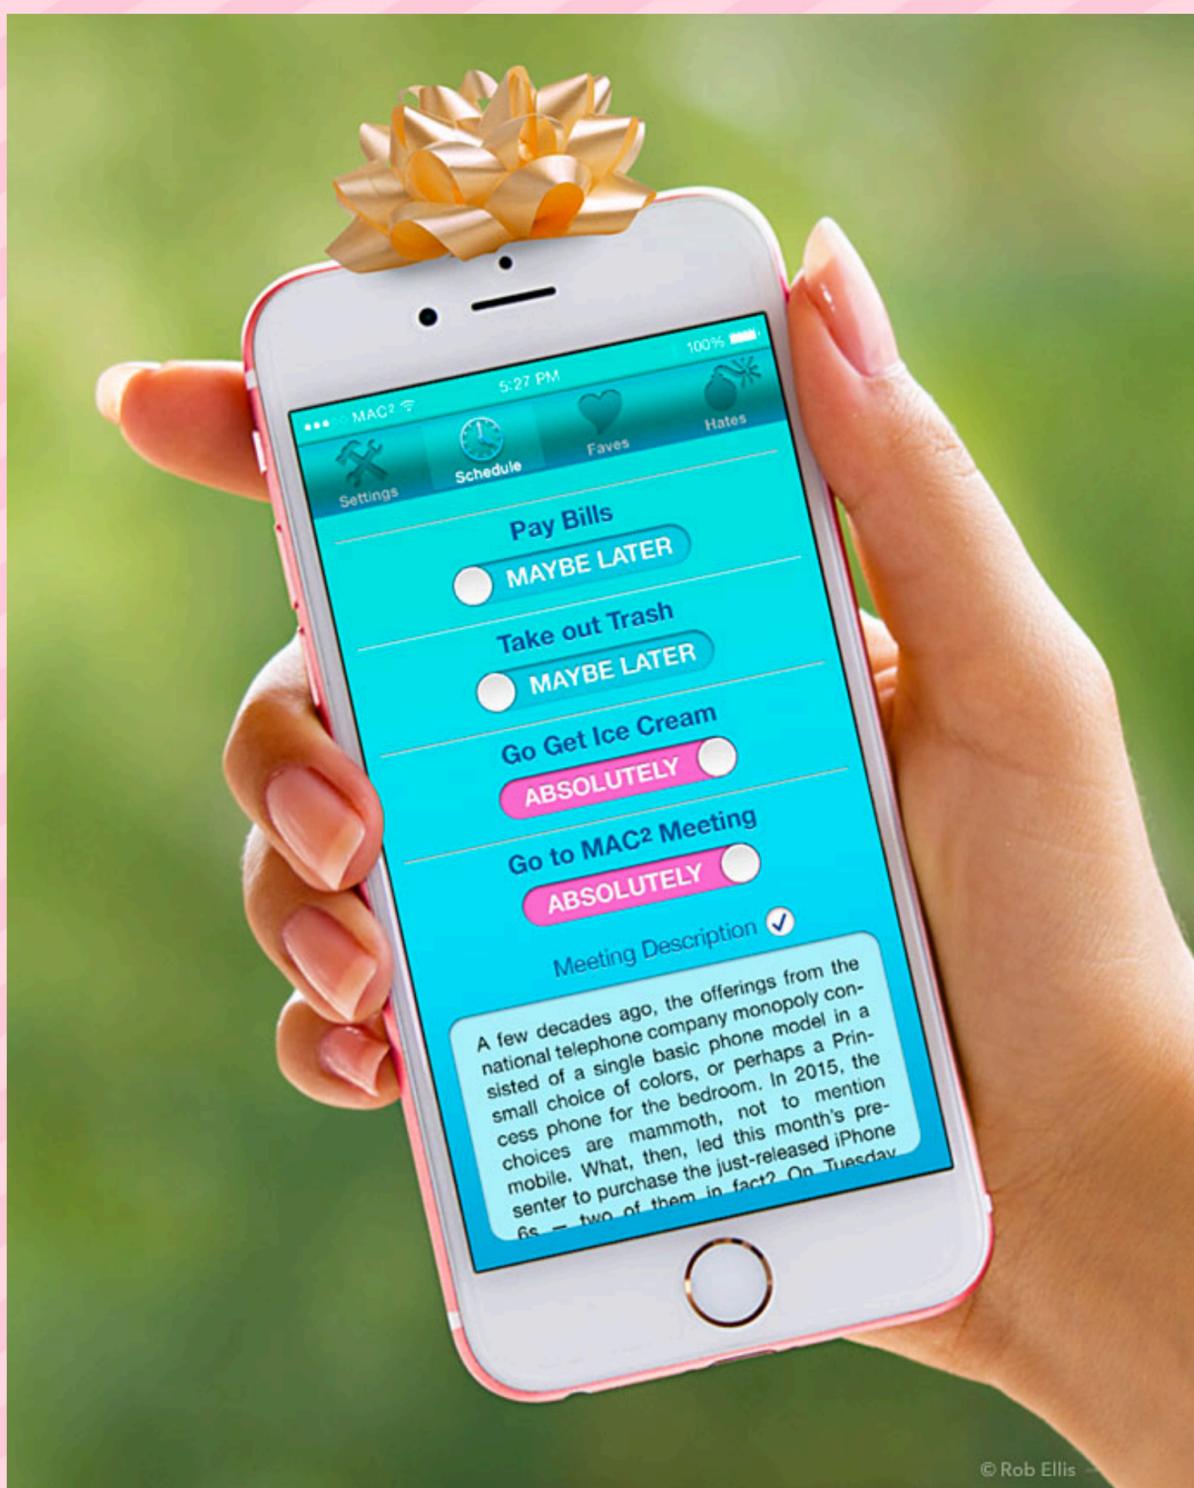

October 6th, 2015 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

WHY I CHOSE THE NEW IPHONE 6s

A tale of software, hardware, features and magic which inspired our presenter to buy himself an iPhone 6s, and one for his wife!
To be presented by **Roger Owens**

A few decades ago, the offerings from the national telephone company monopoly consisted of a single basic phone model in a small choice of colors, or perhaps a Princess phone for the bedroom. In 2015, the choices are mammoth, not to mention mobile. What, then, led this month's presenter to purchase the just-released iPhone 6s — two of them in fact? On Tuesday, Roger will detail the many features of the new iPhone which guided him to a clear decision, such as the speed provided by Apple's custom-designed A9 chip, a gorgeous screen, the '3D Touch' interface, faster networking, possibly the most advanced mobile-phone camera on the market, an impressive new rear-facing FaceTime HD camera, Apple Pay, and a whole lot more. We suspect you will find much to like about our meeting, and about the iPhone 6s, to the point that you too might be inspired to make it your next phone. And golly, your significant other might like one too.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

HOW TO SET YOUR MAC TO OPEN FILES IN THE APPS YOU PREFER
to be presented by **Rob Ellis**

Have you ever wished for a simple method for always opening particular documents in a specific application? On Tuesday, Rob will show how to set your file-opening preferences quickly and easily, so that your Mac will open documents exactly as you prefer.
