

Our next meeting is:

October 4th, 2016 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

PHOTOS FOR MAC • PART 2

The second half of our two-part series: How to transition from iPhoto to Apple's newer Photos app to organize your photos and make them look spectacular
to be presented by **Roger Owens**

Sometimes, once is not enough, and so it is with our "Photos for Mac" topic. With an outpouring of enthusiasm and questions at last month's meeting, it soon became obvious that we would need a sequel. Literally by popular demand, on Tuesday, Roger will show more of Photos' capabilities, including auto-generated Years, Collections and Moments views, organizing photos via Folders and automatically-created People and Places albums, editing photos with tools such as Enhance, Rotate, Crop, Straighten, Flip and Red-eye filter, expanding what Photos can do via extensions, displaying your photos on a world map, searching your photos by the objects and scenery in them, showing off your photos in beautiful slideshows, and the ability to create your own printed photo books, prints, calendars and greeting cards. Apple claims that Photos allows you to rediscover memories in beautiful new ways, and all things considered, we heartily agree.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

HOW TO RETURN TO PREVIOUS VERSIONS OF DOCUMENTS
to be presented by **Rob Ellis**

While editing, for example, a word-processing document or a photo, you might occasionally wish you could go back to a previous version, in which you phrased something better or had not yet inadvertently cropped out an important part of an image. On Tuesday, Rob will show a surprisingly simple way, in several Apple apps, of visually browsing previous versions of your documents, and replacing your latest version with a previous version that you prefer, even if that version is from days, weeks, months or years ago.
