

Our next meeting is:

September 2nd, 2014 — Tuesday
at Creative Source (location details below)

6:30 PM — Socializing, news and announcements
7:00 PM — Presentations begin

This month's topic:

INGENIOUS MAC UTILITIES

**A bright variety of innovative, useful, little-known apps for your
Macintosh**
to be presented by **Rob Ellis**

Would it be slick if you could rename an entire folder of files, all in one fell swoop? Or might it be handy to be able to easily find what is taking up the most space on your hard drive, and delete it if you wish? Would it be smart, astute, and even inspired if you could find a way to prevent your beloved Mac from keeping you awake at night? On Tuesday, Rob will show off a sparkling assortment of utilities that cleverly solve those problems, and others, each with its own unique task. Utilities do not need to be merely utilitarian. In fact, these apps are, well, ingenious. And if you thought such capabilities were impossible, or if they had never occurred to you, the light at the end of that tunnel may turn out to be your Mac's brilliantly glowing screen.

Also,

BACK TO MAC BASICS

In this segment, we focus on more fundamental skills, to make life a little easier for those who are trying to learn how to use their Macs. This month:

WHAT'S WRONG WITH MY GLASSES?

to be presented by **Rob Ellis**

Glasses, schmlasses; sometimes whatever you are trying to see on your Mac's screen is simply too small. On Tuesday, Rob will show several ways you can increase legibility when using your Mac.

OUR MEETING LOCATION:
